In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V). ----->
0 157 157

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

COMMENTS: All Incoming transfers in Section C are from Mesa County Animal Services Incoming transfers from Maddie's Fund partner orgs are: 1 from Montrose County Animal Services and 245 from Mesa County Animal Services. Incoming transfers from outside coalition (line D) are from Pet Samaritin out of Utah. They take them out of shelters with a high kill rate, one that euthanizes 90% of the cats that come in. That's why we help them.

I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."
